Summary

As a computer science graduate, I specialize in mobile application development, excelling in **Flutter** for cross-platform solutions and Native Android for platform-specific needs. I create efficient and user-focused applications. I am eager to leverage my skills in a dynamic environment, contributing to impactful projects while continuing to grow professionally.

Experience

- **AppFable**Faisalabad, Pakistan
Flutter Developer11/2025 - Present

A product-driven company building AI-powered applications across multiple niches, creating value through smart in-app monetization and premium feature offerings.

 - Building and maintaining cross-platform mobile applications in a remote role.
- **EclixTech**Faisalabad, Pakistan
Flutter Developer05/2025 - 10/2025

A product-focused tech company specializing in the development of innovative mobile applications. Design, build, and scale their own apps for global users, with a focus on usability, performance, and long-term value through in-app monetization and premium features.

 - Building and maintaining cross-platform mobile apps for Android and iOS using Flutter.
- **Technupur**Faisalabad

A company focused on technology solutions.

 - Designed and implemented fully functional app modules and dynamic user interfaces for Flutter applications.
 - Developed and maintained the **Jazz** Pakistan Office app using native Java for Android, implementing new features, resolving issues, and enhancing the overall user experience.
 - Increase in app stability by refactoring outdated code modules.
 - Collaborated on cross-platform development to optimize performance and ensure a seamless user experience.
- **Invoxity**Faisalabad
Junior Flutter Developer09/2023 - 11/2023
 - Gained practical experience in mobile app development by actively contributing to a range of tasks.
 - Implemented APIs and enhanced the user interface for mobile applications.
 - Gained hands-on experience in state management using GetX and Provider.
- **Devden**Faisalabad
Intern08/2023 - 09/2023

A software company focused on web development.

 - Completed an internship which provided exposure to Flutter development.
 - Enhanced my technical skills and developed strong time management and punctuality habits.

Education

- Riphah International University**Faisalabad, Pakistan
Bachelors in Computer Science - 3.2 CGPA10/2019 - 08/2023

Certificates

Flutter Certification (02/2023 - 08/2023)

I have foundational knowledge in widgets, API integration, Firebase, and backend development using Dart. I'm eager to gain practical experience and expand my skills in building Flutter applications. With a commitment to continuous learning, I stay updated with the latest developments to enhance my abilities.

Python- Level1 Course (06/2022 - 08/2022)

In the 6-week Python Level 1 master class, I gained foundational knowledge in Python programming, covering topics such as variables, data types, conditionals, loops, and functions. I also learned how to handle user input, manipulate strings, and perform basic file operations

Skills

Flutter • Android native • Java • Dart • Firebase • Git • Github • Postman • Python • Ruby on Rails
